

HASEEB UR REHMAN

Islamabad, Pakistan | +92 315 684 1199 | haseeb.79e@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Results-driven IT graduate with hands-on experience in Flutter mobile development, full-stack web applications, and data analytics. Proficient in building cross-platform mobile apps, designing scalable REST APIs with Flask, and deriving actionable insights from data using Python and SQL. Skilled in end-to-end software development — from relational database design to responsive frontend interfaces — with a strong foundation in machine learning, deep learning, and NLP. Adept at agile workflows, API integration, and cloud-based database solutions. Eager to contribute across mobile, web, and data-driven roles in fast-paced environments.

EDUCATION

Bahria University

Bachelor of Science in Information Technology

Islamabad, Pakistan

March 2022 – January 2026

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Artificial Intelligence, Machine Learning, Software Engineering, Web & Mobile Application Development

TECHNICAL SKILLS

Languages: Python, Dart, SQL, HTML5, CSS3, JavaScript

Frameworks & Libraries: Flutter, Flask, PyTorch, Scikit-learn, Pandas, NumPy

Databases: MySQL, Microsoft SQL Server, Firebase, Supabase (PostgreSQL)

AI/ML & Data: Machine Learning, Deep Learning, NLP, Sentiment Analysis, Data Analysis, Model Deployment

Tools & Platforms: Git, GitHub, REST API Development, Agile, Cross-Platform Development

EXPERIENCE

Maroof International Hospital

MIS Intern – Information Systems Department

Islamabad, Pakistan

July 2025 – August 2025

- Supported app development, software maintenance, and database management within the hospital's information system department.
- Assisted in departmental IT projects, applying software engineering and database concepts to real-world healthcare data operations.
- Collaborated with the MIS team to streamline data workflows and improve operational efficiency.

CodeAlpha

App Development Intern

Remote

December 2024

- Developed Flutter UI components and integrated backend REST APIs within an agile development workflow.
- Participated in debugging and performance optimization to deliver functional, production-ready application modules.

PROJECTS

Agriguard: AI-Powered Rice Disease Detection System | Flutter, Flask, PyTorch, Supabase

Final Year Project

- Built a cross-platform AI mobile app for rice leaf disease detection using EfficientNet-B0, achieving 98% validation accuracy.
- Developed Flask REST APIs for real-time ML inference with under 2-second response time; designed Supabase (PostgreSQL) schema for results and user history.
- Integrated Flutter frontend with backend AI inference pipeline for seamless end-to-end functionality.

SentimentAI: Movie Review Sentiment Analysis System | Python, Flask, NLP, Flutter, Hive

- Built an NLP sentiment classifier using Logistic Regression (90% accuracy) and Naive Bayes (86% accuracy) trained on 50,000 IMDB reviews.
- Deployed Flask REST APIs and built a Flutter mobile interface for real-time sentiment prediction and local data caching.

The Book Empire: Full-Stack Online Bookstore | HTML, CSS, JavaScript, MySQL

- Developed a full-stack e-commerce bookstore with user authentication, dynamic catalog, search, cart, and checkout functionality.
- Designed a normalized relational MySQL database and built REST APIs for order processing, inventory management, and user operations.

CERTIFICATIONS

SQL and Relational Databases 101 – IBM Skills Network / Cognitive Class, May 2026

Career Essentials in Generative AI – Microsoft & LinkedIn, May 2026

MIS Department Internship Certificate – Maroof International Hospital, 2025

App Development Virtual Internship Certificate – CodeAlpha, 2024
